# PACKING

Individual  
Packing

X 30

30 Pieces In  
1 Carton

The XKnits range is a range based on inherently flame retardant fabric, made of 60% modacrylic fiber, 38% of cotton and 2% of antistatic. This fabrics has proven very good performance consistency and efficiency since its flame retardant properties do not wear off through washing and last the garment's life time. The XKnits range guarantee a very high quality garment and comfort to the wearer due to the natural moisture-absorbing properties of cotton. These garments can be worn next to the skin or as an outer wear.

## STANDARDS

This article is in conformity with the model of individual safety equipment which correspond to

**The CE Type-examination certificate n° 0161/3692/14  
Delivered by AITEX (notified body n° 0161 )**

**EN ISO 11612 : 2008  
A1, B1, C1, F1**

- Limited flame spread = **A1**
- Insulation against convective heat = **B1**
- Insulation against radiant heat = **C1**
- Insulation against contact heat = **F1**

**EN 1149-5: 2008**

- Against the risk of accumulation of electrostatic loads

This model is in conformity with the  
standard EN 13688 : 2013

**Washing instructions\*:**

\* Consult the manufacturer before any operation
